Your UK expansion expert

We are **Business Outsourcing**. We offer essential services for international businesses setting up or expanding into the United Kingdom.

Business Outsourcing offer a solution to managing international expansion by handling all your local requirements for professional services.

We are a genuine One Stop Shop for businesses setting up in the UK allowing you to develop your business whilst we take care of the other international support and essential services cost effectively.

From market entry to expansion we are here to support your business. Whether you have a sales office with one employee or a much larger operation, our aim is to provide you with the operational support you need... when you need it.

It's easy to get it right with the help of **Business Outsourcing**.

Payroll and Accounting

We manage your accounts, we can become your on-line finance department, looking after all your financial requirements online, allowing you the real time financial control that your business needs without the expense of bringing it all in-house.

Audit Consultancy and Tax

We can provide a complete audit and compliance solution to the United Kingdom operations of off shore businesses, from setting up through to opening a new branch or representative offices in the UK. Our complete audit and consultancy services encompass your business requirements from early stage set up through to large scale expansion.

Legal Services

If you have decided to establish a presence in the United Kingdom we can advise you on the most appropriate business structure to suit your needs and we provide a complete range of legal services for cross border clients large and small.

We can also assist you with immigration, employment and property issues and help you sort out your contracts with customers and supplier

• BUSINESS OUTSOURCING •

Your UK expansion experts

By using Business Outsourcing you have direct contact with the experts you need to develop your business in the United Kingdom. The founder members are Business Control, Richardson Groves and Veale Wasbrough Vizards.

Richard Starkey, Managing Director – Business Control

Richard is a Chartered Management Accountant with 36 years experience in industry. He spent several years within the Transport, Furniture and Aircraft Industries in which he held many positions, including Managing Director, Finance Director and European Accountant with both national UK companies and US based organisations.

Richard established Business Control in 1990 and now specialises in accounting outsourcing building an impressive portfolio of clients with companies based in the UK and in the USA. Clients range across industries such as defence, environmental recycling, high level computer design and international news media. It outsources part of one of the largest companies in the world, Berkshire Hathaway run by Warren Buffett.

Tim Lerwill, Partner - Richardson Groves

Tim has many years of experience in audit, accounting and advisory services with a diverse client base including owner managed businesses.

As a Partner, Tim has skills as a general business adviser by providing commercial advice which adds value. Tim has experience in a range of sectors, including the legal sector and charities/not for profit organisations.

Tim worked at KPMG for a number of years in the audit department dealing with large companies, plc and worldwide group structures.

May 2010 is when Tim takes the position of President of The West of England Society of Chartered Accountants.

Richard Brown, Partner – Veale Wasbrough Vizards

Richard is a legal adviser with over 30 years of experience of advising corporate and international clients. He is the Law Society's representative for the South West for international matters and is the former chairman of the North American Business Club and the Franco-British Business Club.

As part of the Cross Border Group at Veale Wasbrough Vizards he works with a team of legal experts who regularly advise international businesses that wish to set up or expand their operations in the United Kingdom
